## Observation and Recommendation of Committee done with Signature:-

1. The present NAAC Accreditation status of the college is not valid (Expired in 2008). However, AQAR for the Session 2021-22 has already been submitted and accepted. For the Session 2022-23, AQAR will be submitted shortly. The Principal has informed the team that they have decided to go for Binary NAAC Accreditation process after submission of a total of 03 AQARs as permissible for Rural Colleges. The College has expressed inability to submit the AQARs by April 30, 2024 as 10 male teachers out of a total of 15 are engaged in Election duty since Feb. 19, 2024.

2. The actual position of total strength of non-teaching staff is a matter of grave concern. Only 04 Non-Teaching against 17 approved posts are occupied, hence, a big gap of 13. The administrative work as a result is getting affected.

3. The College already has 03 MOUs signed. Considering the fact that NEP 2020 has been implemented, the college needs to explore the possibilities of more institutional collaborations by signing MOUs with industrial units to encourage internships and employability skills of the students.

4. The Academic Results of certain courses such as Hindi, Economics, and Political Science are fairly good. However, the results of B.Com. 4th Sem. B.Sc. Medical 2nd Sem. (May 22-23), B.Sc. V Semester and B.Com. III & V Semester (Dec.23-24) need attention. It is pertinent to mention that Science stream does not have any regular faculty.

5. The College has no Smart-Boards and only five projectors. Hence, it is recommended that more funds be provided to develop ICT enabled teaching.

6. Even though the College has 55 Computers at present, however, most of the computers were purchased in 2009-10 and have now become obsolete. So, replacement of these

Outdated computers is an immediate requirement.

7. Financial records are well maintained and up to date.

8. Generous research funding is recommended to support faculty members with potential for research. Teaching Faculty should be motivated to submit research proposals in order to improve the research contribution to different funding agencies.

9. (a) Faculty development through involvement in academic operations such as attending seminars/conferences/workshops etc and motivating them to undertake research activities and projects.

(b) Transferability of the teaching faculty from one place to another location in Govt. colleges is possibly a big reason in limiting the scope of research/publications work of faculty members. Affiliation of current institute in the research publications has been reported as important reason in consideration of research papers in the credit of one particular institute.

10. Allocation of specific funds for participation in conference/seminars will promote research.

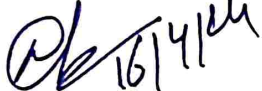

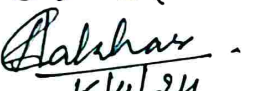

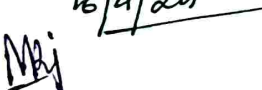

11. Value Added and Skill-based courses should be introduced to develop entrepreneurship and employability of the students.

12. Constitution & functioning of the Anti-Sexual Harassment Committee/Internal Complaint Committee (ICC) should be as per UGC norms. The details of ICC members along with the contact number of ICC Chairperson must be displayed at prominent places in the college.

13. Considering the vastness of the campus, availability of cleanliness workers, gardeners etc are needed.

14. Budget allocation for latest reference books for different subjects in the library is needed.
